

CARNOT WILL HOLD HIS POST.

To Save the French Republic from Internal Rendings.

M. Herz's Remarkable Scramble for an American Passport.

VIENNA, Dec. 19.—President Carnot, says a despatch from St. Petersburg, "has informed the court that he will remain at his post under any circumstances to save France from internal disturbance."

Pans, Dec. 19.—The *Telegraph* publishes an interview with M. Cornelius Herz, who it is said is deeply implicated in the Panama Canal scandal.

M. Herz declares that he had nothing to do with the affairs of the Panama company. At the time it is charged that the wholesale bribery was going on—in 1889—he was living in Frankfurt, Germany. He says he received two checks for 1,000,000 francs each from Baron de Reichen, but these checks were given in settlement of a private debt.

The *Telegraph* adds that in 1889 M. Herz applied to the United States Legation for a passport. His papers were irregular, and Mr. McGraw, the then American Minister, hesitated to issue a passport to him.

When he found that there was some question about the Legation's right to issue the passport he had asked for, M. Herz made lavish donations to the American charities in Paris, in the mean time urging that the passport be issued.

He succeeded finally in obtaining the desired document, which was issued to him by the authorities at Washington, to whom the case was referred by the Legation. Since that time M. Herz has not visited the Legation and has not been seen in American society.

An application for the department of public works was \$100,000,000, the recent number for City Council.

TALKING about wrestling," said old "Bill" Gleason, of the "Kings" company, "one finds a little trouble with less than a man than Forrest. I thought a complete catastrophe was going to occur to make an occasional suggestion.
